WHO WE ARE

Too many families in the UK live every day with feelings of isolation, exclusion, judgement, stress and anxiety because the world around us is not set-up to help their children live life to their full potential.

Little Miracles exists to help everybody experience the joy that comes with a family. A place of friendship, understanding and safety where happy memories are made.

We are a charity that supports families that have children with additional needs, disabilities and life-limiting conditions.

HOW WE CAN HELP YOU

Our Family Support team have a wealth of experience in helping families find their way through the complex and changing world of disability.

We can support you by:

- helping you access your financial entitlements
- introducing you to new services and making sure you are speaking to the right people
- supporting you with planning for and attending school meetings and ensuring that your child is properly supported in their education.
- explaining what diagnoses and conditions actually are, advocating at appointments and help you understand health care letters.
- helping with housing issues
- providing emotional support
- discussing behavioural and communication strategies
